HOW DID I GET HERE?

My goal is to work on projects I can be proud of, an idea or staple that displays my willingness and talent accurately. Above all else, I strive to improve with every project, overcoming challenges and persevering through adversity. Failure is apart of life, and learning from them is the first step to improvement. "Dude, suckin' at something is the first step to being sorta good at something" - Jake the Dog.

EXPERIENCE

2022 – present full time	CNC Machine Operater/3D Modeler/Product Designer Editing 3D models for clients to make print ready. Design & fix 2D CNC files & operate CNC machine. Design electronic fixtures for haunted house setups.	Haunted House Creations

LANGUAGES

English - native
German - rudimentary

HOBBIES

Writing scripts to solve mundane issues like converting a directory of pdfs into one pdf. Building hardware solutions to things nobody asked for, like a new computer or synthesizer that I want to play.
